

Special Issue

Morphology and Internal Mixing of Atmospheric Particles on *Atmosphere* – Open Access Journal MPDI

...**welcome** laboratory and field measurements, as well as modeling efforts that investigate the morphology and internal mixing of atmospheric particle at the single-particle level, their chemical and physical interactions with the environment and their effects, for example, on optical properties and microphysical processes

Swarup China & Claudio Mazzoleni – *Guest Editors*

Deadline for manuscript submissions: 31 January 2017

The Article Processing Charge (APC) for publication in this open access journal is 1000 CHF (Swiss Francs ~ \$1K).
