

ARM Data Center

Computing and Storage Resources

Rob Records

ARM Data Center

ARM DATA CENTER

Operated and maintained by DMF and Archive

- Consolidated Architectures
- Increased Capacity
- Clustered environment to increase data flow and processing capability

ADC Generation 1: Shared Storage Resource

Shared Resource

Currently: Two data pools for a total of 167 TB and 236 TB

- Expanding each pool to approximately 400TB each by end of June 2016.
- Capable of expanding this resource (ADC Gen1) to 1.9PB
- /data/archive and /data/project
- /data/archive is a pool of data staged as online file that are readily available to both operational and research users.
- Current policies are posted in ECO 1125 in DRAFT form
- Currently, policies are being monitored and executed via manual intervention.
- Both pools are actively being utilized for operational uses

Data Project Policies & Procedures

- A request should include:
 - User names
 - Name and description of project
 - Anticipated “start date”
 - Requested duration – anything over 90 days requires a justification and approval of the justification.
 - Required space
 - Backups are not performed of user's data in this shared work space. The resources are not available, at this time, to provide project level backups.

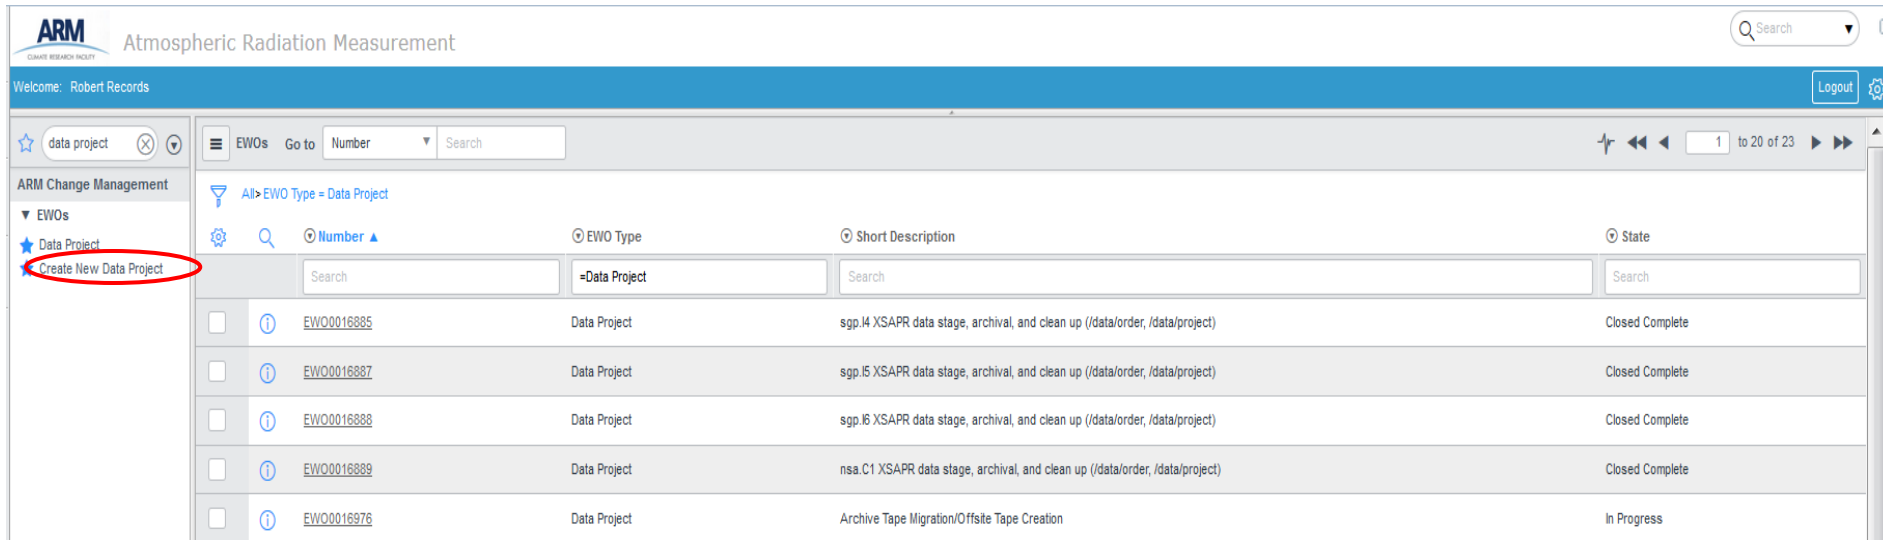

Note: Request submission does not guarantee immediate approval and project setup. Project approval is based on resource availability and the approval of request requirements. If resources are not available the request will go into a queue until proper resources are available. The requester will be notified on resource availability.

A more detailed set of Policies for data project use can be found within ServiceNow in ENG0001125.

How to Request /data/project Resources

ARM/SARS account to access computational resources required, as well as, access to ServiceNow to submit a Data Project request.

ServiceNow: <https://armcrf.service-now.com>

The screenshot displays the ServiceNow interface for ARM (Atmospheric Radiation Measurement). The page title is "ARM Atmospheric Radiation Measurement". The user is logged in as "Robert Records". The main content area shows a list of "Data Project" requests. The "Create New Data Project" link in the left-hand navigation menu is circled in red. The table below lists several Data Project requests with their EWO numbers, descriptions, and states.

	Number	EWO Type	Short Description	State
<input type="checkbox"/>	EWO0016885	Data Project	sgp.I4 XSAPR data stage, archival, and clean up (/data/order, /data/project)	Closed Complete
<input type="checkbox"/>	EWO0016887	Data Project	sgp.I5 XSAPR data stage, archival, and clean up (/data/order, /data/project)	Closed Complete
<input type="checkbox"/>	EWO0016888	Data Project	sgp.I6 XSAPR data stage, archival, and clean up (/data/order, /data/project)	Closed Complete
<input type="checkbox"/>	EWO0016889	Data Project	nsa.C1 XSAPR data stage, archival, and clean up (/data/order, /data/project)	Closed Complete
<input type="checkbox"/>	EWO0016976	Data Project	Archive Tape Migration/Offsite Tape Creation	In Progress

How to Request /data/project Resources

ServiceNow: <https://armcrf.service-now.com>

* Requester Name:
Robert Records

* Describe the project and why you need this space.

* Provide a brief/unique label for this request.

* When do you expect to start this work?

* How long does the data need to be retained on data/project?

Requested Duration
More Information

If the duration is beyond 90 days, provide a detailed justification.

* How much space do you expect to require?
More Information

* Specify datastreams:

* Affected Sites:

Collection List

- No site(s) affected --

* Description

User name:
Nicole Keck

Name and description of project:
Post and Re process sgp i4 xsapr data
RID 1089, EWVO 15937

Anticipated /A0start date/A0:
March 2015

Requested duration:
4 months (until complete)

Required space:
Not sure.
Need the following datastreams in their entirety:
egovsaprmsm14
egovsaprpp14
egovsaprvd14
egovsaprvpt14

* DP Name/Project Description
Post and Re process SQP i4 xsapr data

* Affected Site(s)
ARCHIVE

Affected Facilities

* DP Requester Name
Nicole Keck

* DP Anticipated start date
2015-03-01

* DP Retention Date
2015-04-30

DP Requested duration
60 Days

DP Justification

* DP Required space
n/a

* DP Datastreams
Need the following datastreams in their entirety:
egovsaprmsm14
egovsaprpp14
egovsaprvd14
egovsaprvpt14

DP Approved Date
